

Chapel Theatre Will Present Drama Classes by McNamara

A new phase of Chapel Theatre will begin on the evening of July 6, Friday, when Bobo McNamara will explain his method of teaching the art of drawing out the individual's personal reaction to situations on the stage in an effort to further the actor's abilities in performing before audiences. This will be the start of drama classes, which will be conducted by McNamara at Chapel Theatre, 4164 Pacific Coast Highway, with the first class to be on July 15. During the introductory class McNamara will demonstrate and introduce his method of training.

McNamara's vast knowledge comes from an accumulation of the teachings of the professional training he received from such greats as Herbert Bergoff, Uta Hagen, and Stella Adler all of New York, plus Jeff Corey and Brian Hutton of Hollywood. He is a graduate of drama from San Jose State College where he received his B.A. degree. He has two movies and six TV credits which include "The Naked City," and "The Rifleman," plus New York and Hollywood productions.

As Mr. McNamara stated: "Unlike other artists, the actor has no outside instrument. He has no paint brushes, no musical instruments, no pencils or papers to further his work. He has only himself. A way, or method must be found to bring each actor's instrument (emotions) to the stage. I'm not speaking of the stereotyped emotions that you sometimes see on all stages, I'm speaking of those specific emotions which each actor has that is his alone, and no one else's. He or she must learn that their particular way of showing themselves to audiences in plays is the most rewarding moment for all actors.

"The applause at the end of the play is not as rewarding as the actor feeling the audience believing in him as that particular character which he is portraying. To do this, to make the audience believe, he must know and believe in himself."

Anyone interested in receiving the benefits of Bob McNamara's coaching is invited to attend the opening class on July 6 and further information may be obtained by calling McNamara at FR 2-6208 or the theatre at FR 2-9636.

Home Savings Accounts to Hit \$1 Billion

Home Savings and Loan Association, already the nation's first single S & L to achieve a billion dollars in assets, will soon record another milestone in the industry — a billion dollars in savings accounts, according to Kenneth D. Childs, Home's president.

A six-month statement for the period ended June 1, 1962, showed Home Savings' assets to have increased \$152,727,833 over the same date last year for a national record breaking total of \$1,095,845,195.

The report also revealed savings accounts now stand at \$963,848,315, a 17 per cent or \$139,744,644 increase over the six month mark, ended June 1, 1961.

Real estate loans have increased \$138,943,129 from \$787,203,120 to \$926,146,249 during the past twelve months. Of the current total, 328,925,481 are government guaranteed or insured loans.

Home's reserves grew from \$75,470,259 to \$72,052,678 during the past 12 months.

Torrance Labs To Rent-Lease Test Equipment

Need for a nation-wide specialized test equipment rental and leasing program with built-in service and calibration features, will be met by Digital Laboratories of Torrance on completion of its expansion program. Thus, an immediate, inexpensive means of acquiring needed instruments for short or long time periods will be available to industry in most areas.

DSL has pioneered in this specialized field, having operated in the Southern California area for several years, renting, servicing and leasing test equipment to both large and small industries. Now, after proving its operations formulae, DSL is pursuing the national market for both short-time rentals and long-term leasing, calibration and service.

A thorough knowledge of the instrumentation and electronics fields acquired from positions with leading manufacturers, plus an insight to industry requirements, led James R. Campbell to form Digital Service Labs in 1959. Formerly, he had organized a company to service computer installations and other electronic equipment.

John H. Paules agent locally for the South Bay Agency of the Prudential Insurance Co., has been honored with one of the industry's highest tributes, the National Quality Award, it was reported today by Manager Clyde Emery.

The award is presented to agents who have kept in force a high percentage of the life insurance they've sold. The purpose of the award is aimed at encouraging the writing of life insurance programs well adapted to the policyholder's needs and circumstances.
